SUMMARY

Full-Stack Web Developer with expertise in React, Next.js, and Django, experienced in building responsive applications, integrating APIs, and creating efficient, user-friendly digital solutions. Strong problem-solving skills with a keen interest in AI and ML.

EXPERIENCES

Junior Full-Stack Developer   January 2025 – October 2025

Techyatra Labs

- Developed responsive and interactive frontend applications using React/Next.js and Tailwind CSS.

- Designed UI/UX interfaces to enhance usability and user experience.

- Integrated backend APIs and managed database connections for full-stack functionality.

- Collaborated in agile workflows, participated in code reviews, and optimized application performance.

- Implemented dynamic features including dashboards, multi-step forms, and real-time updates.

Freelance UI/UX Designer   July 2025 – September 2025

Nutrisnap.io

- Designed and prototyped user interfaces for web and mobile applications using Figma.

- Developed wireframes, interactive prototypes, and visual designs aligned with client needs.

- Focused on creating intuitive and user-friendly experiences through research and iteration.

- Collaborated with clients remotely to deliver high-quality design solutions on time.

Associate Graphics Designer and Video Editor   March 2024 – December 2024

Seekshya Academy

- Created visually appealing graphics and layouts for digital and print media.

- Edited and produced high-quality videos for social media, marketing, and presentations.

- Collaborated with teams to develop creative concepts aligned with brand guidelines.

- Managed multiple projects, ensuring deadlines and quality standards were met.

- Utilized tools like Adobe Photoshop, Illustrator, Premiere Pro, and After Effects effectively.

PROJECTS

Lumo (A Learning Management System)

Personal • (September 2025 – October 2025)

Lumo is a full-stack Learning Management System built with React, Next.js, and Django, designed to streamline online learning through an intuitive and responsive interface. It features role-based authentication for students, teachers, and admins, dynamic course management, assignment uploads, progress tracking, and real-time analytics dashboards. The system integrates REST APIs for seamless data flow, ensures smooth navigation with optimized UI/UX, and supports secure user data handling.

EDUCATION

Bachelors in Computer Application (BCA)

Tribhubhan University • 2025

CERTIFICATIONS

Python Django

Broadway Infosys • 2024

SKILLS

Frontend: React, Next.js, JavaScript, TypeScript, HTML, CSS, Tailwind, Framer Motion, ShadCN UI

Backend: Django, Django REST Framework, Python, REST APIs, PostgreSQL, MySQL, Authentication (JWT/Session), ORM

UI/UX: Figma (Design & Prototyping), Wireframes, User Flows, Components, Design Systems

Tools & Platforms: Docker, Git, GitHub, Linux, VS Code, Postman, NPM, Node.js

Graphics : Photoshop, Illustrator, Premiere Pro

Soft Skills: Problem-Solving, Communication, Collaboration, Time Management
